Dear Pete:

Thank you so much for the sinking of the Faithful Steward story.

Your comments with respect to my talk in Atlanta are most appreciated, and I am glad the research I have been doing has interested so many people. No one will ever say that research can't be exciting. Wait till you read what I said about some of the things in the Smithsonian Institution and you might join someone else in not wishing to speak to me again.

I look forward to seeing you at any time our paths can cross, and thank you for your kindness.

Sincerely,

EPN:dv
